

Eco Seminar Series Fall Semester 2017

When **Thursdays, 11.00 to 12.00 h**

Where **Eawag Dübendorf, Forum Chriesbach, room D24 (*alternate room, C24)**

For video transmission to Kastanienbaum, email videoconference@eawag.ch 2 days before the seminar.

21.09.2017	Lateral processes as a new frontier in aquatic physics: Impact on the ecosystem Dr. Damien Bouffard <i>Department of Surface Waters, Eawag</i> Host: Francesco Pomati
05.10.2017 *	Relaxed selection during spatial range expansions: Insights from experimental evolution and human genomics Dr. Stephan Peischl <i>University of Bern</i> Host: Emanuel Fronhofer
19.10.2017 CEEBSeminar	Ecological stoichiometry in an eco-evolutionary framework: Causes and consequences of rapid adaptation in plankton consumers to resource limitation and stoichiometric imbalance Dr. Steven Declerck <i>NIOO-KNAW</i> Host: Pierre Chanut
02.11.2017	Food web structure, eutrophication gradients and seasonal dynamics: The interplay of biotic and abiotic factors in shaping plankton community patterns Dr. Sabine Wollrab <i>IGB Berlin</i> Host: Isabell Gounand
16.11.2017 * CEEBSeminar	From so simple a beginning: The evolution of biodiversity in evolving microbial populations Prof. Rees Kassen <i>University of Ottawa</i> Host: Anita Narwani
30.11.2017	Limits of plasticity and capacity for adaptation to global warming in marine phytoplankton Prof. Gabriel Yvon-Durocher <i>University of Exeter</i> Host: Francesco Pomati
07.12.2017 CEEBSeminar	Why don't we have a general theory of biology? What might such a theory look like? Prof. Tim Coulson <i>Oxford University</i> Host: Stuart Dennis

The schedule can also be found at <http://www.eawag.ch/en/department/eco/events/> or on the Eco Outlook calendar.
