

Best Presentation Award for Mihai-Ovidiu Degeratu

August 29, 2024 | Mihai-Ovidiu Degeratu

Back in April, Utox was proud to learn that Mihai-Ovidiu Degeratu, a second-year PhD candidate at our department Environmental Toxicology, won the “Best Student Oral Presentation” award at the CHanalysis24 conference for his presentation titled “Proteomics profiling questions morphological classification of zebrafish cell line”.

With this award, Mihai was invited to submit a short [article](#) – the very first one coming out of his PhD project – that now appeared in the August issue of *Chimia*, the journal of the Swiss Chemical Society. Congratulations Mihai!
