

Best Presentation Award for Mihai-Ovidiu Degeratu at SETAC's YES Meeting 2025

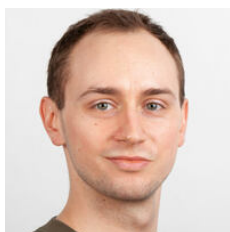

September 2, 2025 | Mihai-Ovidiu Degeratu

This year's edition of SETAC's Young Environmental Scientists (YES) meeting was held between 11th and 14th of August, in York, UK, where over 100 PhD students and early-career scientists attended.

SETAC YES offers a great opportunity for PhDs to gain international conference experience, network and present their work in a student-friendly setting.

Three Utox PhDs, namely Sarah Descloux, Kehinde Olajide (Kenny) and Mihai-Ovidiu Degeratu, participated in the event and presented part of their doctoral research. At the end of the four-day conference, Mihai-Ovidiu Degeratu received the award for the Best Platform Presentation for his talk "Proteomics-Based Evaluation of Zebrafish PAC2 Cell Line as a Model to Study Molecular Mechanisms of Chemical Toxicity in Fish". Congratulations!
