Tove Larsen will become member of directorate

September 19, 2014 | Andri Bryner
Topics: Organisation & Staff

Eawag researcher Dr Tove Larsen will become the new member of the Directorate. She will succeed Professor Hansruedi Siegrist, who will retire at the end of September 2014, as from 1 October 2014.

Tove Larsen holds a Doctor's degree in Chemical Engineering and has been a senior scientist in Eawag's Department of Urban Water Management since 1999. As a member of the Directorate, Tove Larsen will represent the research field of environmental engineering, thus supporting Eawag's endeavour to implement innovative technologies in a practical manner. Tove Larsen has already led large-scale research projects in the field of urban water management with a high degree of success. In the course of her activities to date, she was also a Lecturer in Environmental Engineering for eight years at ETH Zurich and a Visiting Professor at the Technical University of Denmark (DTU) for one year.
