

Eco Seminar Series, Spring 2020

When **Fridays, 13.00 to 14.00 h**

Where **Eawag Dübendorf, Forum Chriesbach, Room C24**

For video transmission to Kastanienbaum, email videoconference@eawag.ch at least 2 days before the seminar.

21.02.2019	Towards a multitrophic perspective of species coexistence Prof. Oscar Godoy <i>Biology Department, Institute of Marine Sciences (INMAR), Univeristy of Cadiz</i> Host: Irene Gallego
06.03.2019	Life in a giant water bath: Consequences for ecological dynamics in the ocean Prof. Malin Pinsky <i>Department of Ecology, Evolution, and Natural Resources, Rutgers University</i> Host: Jon Norberg
20.03.2019	The science-practice gap in conservation management: lessons learned in Switzerland Prof. Dr. Rolf Holderegger <i>Eidgenössische Forschungsanstalt für Wald, Schnee und Landschaft (WSL)</i> Host: Christoph Vorburger
03.04.2019	Inferring causation from time series with perspectives in Earth system sciences Dr. Jakob Runge <i>Institute of Data Science, German Aerospace Center (DLR)</i> Host: Francesco Pomati
24.04.2019	An integrative approach to reveal aquatic community responses to multiple stressors Prof. Rolf Vinebrooke <i>Department of Biological Sciences, University of Alberta</i> Host: Francesco Pomati
08.05.2019	Beyond mechanism: using patterns to make predictions in community ecology Dr. Daniel Maynard <i>Institute of Integrative Biology, ETH Zurich, Zurich, Switzerland</i> Host: Anita Narwani

The schedule can also be found at <http://www.eawag.ch/en/departement/eco/events/> or on the Eco Outlook calendar.
