

# biology<sup>24</sup>

The largest conference of organismal biology in Switzerland

January 18-19, 2024, Zürich

Satellite workshop on self-organization in complex systems: January 17, 2024

Biology24 serves as a vibrant platform for students, researchers, and professors to connect and exchange ideas. Scientists from diverse scientific institutions and research groups gather to share their expertise in fields such as evolution, genetics, molecular biology, and ecology.

We invite researchers and scholars from diverse fields of organismal biology to submit their abstracts for oral or poster presentations.

## KEYNOTE SPEAKERS

**Erica Bree Rosenblum**  
UC Berkeley, USA

**Emmanuel Toussaint**  
Natural History Museum of Geneva, Switzerland

**Yuko Ulrich**  
Max Planck Institute for Chemical Ecology, Germany

**Nicole van Dam**  
Leibniz Institute for Vegetable and Ornamental Crops (IGZ) & Friedrich-Schiller-University Jena, Germany

**Wolf Blanckenhorn (Darwin speaker)**  
University of Zürich, Switzerland

## AT A GLANCE

- Registration/Abstract submission opens early October
- Abstract submission deadline: November 7, 2023
- Registration deadline: December 15, 2023
- Conference: January 18-19, 2024
- Satellite workshop: January 17, 2024
- Venue: ETH Main Building, Zürich
